6. Publications and dissemination

Outcomes (publications, presentations, patents, etc.) resulting from work carried out in the frame of this project must acknowledge ITACA.SB using the following text:

“Potentiating the Italian Capacity for Structural Biology Services in Instruct-ERIC”, acronym “ITACA.SB” (Project No. IR0000009, CUP B53C22001790006), funded by the European Union’s NextGenerationEU under the MUR call 3264/2021 PNRR M4/C2/L3.1.1

7. Compliance and conflict prevention

Both Parties shall exercise due diligence and reasonable caution to prevent any conflicts that may impact the execution of this Agreement. Each Party acknowledges its responsibility to comply with all applicable laws and regulations relevant to its activities under this Agreement.

In particular, with respect to health, safety, and environmental regulations, each Party affirms its awareness of and commitment to adhering to the applicable legal and regulatory requirements, recognizing that such compliance is a fundamental obligation.

Each Party shall perform its obligations under this Agreement in full accordance with its respective national and international laws governing the Project.

Responses may be used for outreach purposes, including the project's website, social media, and reports.

Each User will receive a link to answer a Survey about the TOA Access experience. This questionnaire should be completed within 3 weeks after the end of the NOA access. Through this User feedback, the Users will express their outcomes and experiences of their access at the infrastructures. These exchanges will give rise to improvements for the future TOA programme.
